

Año concurso	Código proyecto	Nombre proyecto	Duración (meses)	Investigador(a) Responsable
2016	11160116	The impact of land use on the fecal sources of contamination of rivers and on human and animal health risks	36	Aiko Dora Adell Nakashima
2016	11160268	Puertas adentro. Las modalidades del control social y de los regimenes emocionales como factores de la "crisis de la deomesticidad" (chile, 1870-1920)	36	Solene Marie Bergot
2016	11160329	Petrogenetical, geochronological, sedimentological and structural characterization of the triassic units of southern central chile (34°-40° s): implications for the early andean ecolution and the onset of subdduction	36	Pablo León Rossel Estrada
2016	11160345	Cost structures in hub location models	36	Armin Mauricio Luer Villagra
2016	11160468	Synthesis of metallic nanoparticles stabilized with organic and inorganic capping agents with catalytic properties in oxidation-reduction reactions of organic compounds	36	Cecilia Carolina Torres Muñoz
2016	11160591	Stationary distributions for reflected processes: dilliards and degenerated diffusions	36	Mauricio Andrés Duarte Espinoza
2016	11160787	Characterization of pectin methylesterases (pme) and inhihator of pectin methylesterases (pmei) acting on homogalacturon an methylesterification in arabidiopsis seed coat mucilage	36	Susana Sáez Rivera
2016	11160868	Hijos vulnerables, hijos peligrosos: construccion de la infancia en los archivos del tribunal de menores de santiago, 1928-1942	36	Silvana Clara Veto Honorato
2016	11160905	Revealing spatial and seasonal patterns of microbial genetic diversity through metagenomics in a human impacted ecosystem	36	Eduardo Felipe Castro Nallar
2016	11160927	Designing new metallocenes employing aromatic clusters formulated by isoelectronic substitutions and evolutionary algorithms	36	Rafael Islas Colina
2016	11160965	Formas de exclusion de los programas de transferencias condicionadas: condiciones (in) cumplidas	36	Tal Reininger Pollak
2015	11150174	Systems metabolic and process engineering of pseudomonas putida for the synthesis of tailor-made polyhydroxyalkanoates	36	Ignacio Andrés Poblete Castro
2015	11150279	New computational methodologies for discovering efficient perovskite-based solar materials	36	Claudia Cristina Loyola Canales
2015	11150317	Pensar el deseo y la institución con g deleuze y e lévinas lecturas del otro, lo social y lo politico	36	Francisco De Borja Castro Serrano
2015	11150340	Cuerpo, verdad y justicia evidencia orgánica, análisis científico y práctica judicial en chile urbano, 1892-1926	36	María Jose Correa Gómez
2015	11150548	Organic matter influence on the persistent organic pollutants (pops) and other semivolatile organic compounds (svocs) occurrence and cycling in the water column	36	Cristóbal Galban Malagon
2015	11150588	Identification of genes regulated by yqqf, a novel anti-rho factor that differentially controls the fitness of salmonella in vitro and in the intracellular microenvironment	36	Alejandro Andrés Hidalgo Cea
2015	11150732	Dinamismo singular de la relación: elementos para una reconstrucción de la ontología relacional a partir de una teoría de las multiplicidades (simondon, deleuze)	36	Cristóbal Duran Rojas
2015	11150918	Telemedicina, controversia y cambio social en chile cómo la telemedicina se construye socialmente y configura la sociedad	36	Fernando Andrés Valenzuela Arteaga
2015	11150988	Development of new molecules hsp90 inhibitors: computational design, synthesis and biological evaluation	36	Jorge Andrés Soto Delgado
2015	11150214	Sócrates y la Transvaloración de los Valores	36	Javier Echeñique Sosa
2015	11150490	Juan Ignacio Molina y la Italia Antártica. Imperio, historia natural y los problemas en la producción de los saberes científicos en el mundo atlántico (s. XVIII-XIX)	36	Francisco Orrego
2014	11140108	Genetic diversity of salmonella phage and crispr spacer arrays as a signature of salmonella animal origin	36	Andrea Isabel Moreno Switt
2014	11140216	Detection and quantification of gas hydrates reservoirs and gas emissions by using acoustic and seismic data, offshore chile	36	Iván De La Cruz Vargas Cordero
2014	11140255	Role of pericytes and tumor epithelial cells in the acquisition of resistance to antiangiogenic therapy	36	Paula Camila Sotomayor Fahrenkrog
2014	11140294	Theoretical determination of spin hamiltonian with isotropic and anisotropic magnetic interaction in lanthanide and actinide complexes	36	Dayan Páez Hernández
2014	11140401	Luminescent biofunctionalized rhenium complexes for imaging ano therapy applications	36	Marjorie Valeria Cepeda Plaza
2014	11140613	Retóricas del espectáculo articulaciones entre la novela y el cine en chile y argentina 2001-2015	36	Luis Heriberto Valenzuela Prado
2014	11140902	Are emerging infectious diseases causing amphibian declines in chile? The role of invasive species in the epidemiology of batrachochytrium dendrobatidis and ranavirus infection	36	Claudio Alejandro Soto Azat
2014	11140381	Uso de entornos virtuales a como facilitadores de los procesos de enseñanza	36	Jorge Chávez Rojas
2013	11130094	Bridging the gap between askers and high quality answers in community question answering services	48	Alejandro Gastón Figueroa Amenabar
