

LISTADO DE TESIS FINALIZADAS
DOCTORADO EN MEDICINA DE LA CONSERVACIÓN
UNIVERSIDAD ANDRÉS BELLO

	GRADUADO	PAÍS DE ORIGEN	AÑO	TESIS
1	Claudio Azat Soto	Chile	2013	Saving the last mouth brooding frogs: is chytridiomycosis driving Darwin's frogs to extinction?
2	Sebastián Alberto Klarian Klarian	Chile	2014	Changes in trophic levels and accumulation of heavy metals in oceanic sharks of south pacific waters
3	Manuel Roberto García-Huidobro Moreno	Chile	2014	Efecto del manejo de recursos bentónicos sobre la relación hospedador-parásito y sus implicancias en la conservación de tres especies de moluscos de importancia económica en la zona central de Chile
4	Luis Emilio Escobar Quiñonez	Guatemala	2014	Panorama epidemiológico de la rabia en murciélagos de Chile
5	Francisca Astorga Arancibia	Chile	2015	Free-ranging dogs in central Chile: emerging threats to public health, wildlife, and the human dimensions behind the problem
6	María Claudia Elizondo Patrone	Uruguay	2015	Respuesta de la comunidad microbiana al enriquecimiento de amonio excretado por salmones en ecosistemas de fiordos
7	Daniela Poo Muñoz	Chile	2015	Where wilderness and humans meet: assessing interactions between people and wild and domestic carnivores in a fragmented landscape
8	Emma Stapleton	Estados Unidos	2016	Impact of indoor vegetation on exposure to ultrafine particulate matter in homes in Santiago, Chile
9	Bárbara Ramos Humeres	Chile	2016	Variación interespecífica e intraespecífica de genes relacionados con termorregulación en pingüinos
10	Andrés Valenzuela Sánchez	Chile	2017	Is chytridiomycosis a threat to the endangered mouth-brooding frog (<i>Rhinoderma darwinii</i>)? A multi-approach disease risk assessment
11	Sylvia Rojas Hucks	Colombia	2017	Efectos de compuestos orgánicos persistentes en <i>Xenopus laevis</i> (Daudin, 1803) y su posible uso como bioindicador en la zona central de Chile
12	Marcelo Flores Morales	Chile	2017	Effects of invasive alien species on a ground-nesting seabird in an oceanic island: the case of the red-tailed tropicbird (<i>Phaeton rubricauda</i>) on Easter Island
13	Macarena Barros Lama	Chile	2017	Surveillance and epidemiologic evaluation for <i>Toxoplasma gondii</i> , parvovirus, distemper virus and <i>Leptospira</i> in domestics pets, American mink (<i>Neovison vison</i>) and Southern river otter (<i>Lontra provocax</i>) in Southern Chile
14	Federico Villatoro Paz	Guatemala	2018	Dinámicas poblacionales en perros domésticos de área rural: efectos del manejo humano y sus consecuencias epidemiológicas y de conservación
15	Irene Sacristán Yagüe	España	2019	Effects of landscape anthropization on the interspecific transmission of pathogens and antimicrobial resistance genes in guignas (<i>Leopardus guigna</i>) of Chile
16	Aitor Cevidanes Miranda	España	2019	Evaluating inter-specific transmission of canine vector-borne pathogens between dogs and foxes in a human-dominated landscape
17	Carlos Canales Cerro	Chile	2019	Analysis of trophic interactions of large oceanic predators as an indicator of the stability of marine ecosystems
18	Diego Pérez Venegas	Chile	2019	Pinnipeds as new sentinel on plastic pollution
19	Mario Alvarado Rybak	Chile	2020	Epidemiology of Batrachochytrium dendrobatidis in Chile and the role of the invasive African clawed frog (<i>Xenopus laevis</i>) as a vector
20	Melanie Duclos Katunaric	Chile	2020	Influence of latitude and feeding habits on exposure to organic pollutants and corticosterone levels in feathers of the Andean condor (<i>Vultur gryphus</i>) in Chile

21	Frederick Toro Cortés	Chile	2020	The frontline: Assessment of the skin bacterial communities of three species of rorquals from different environments with human impacts
22	Cayetano Espinosa Miranda	Chile	2020	Geographic variability and effect of environmental stressors on health biomarkers in two small cetaceans of northwestern Patagonia
23	Manuel Lepe López	Guatemala	2020	Riesgo espacial y temporal de <i>Caligus rogercresseyi</i> sobre el ecosistema marino de Chile
24	Elfego Cuevas Domínguez	México	2021	Haemosporidian parasites on latitudinal gradients: molecular epidemiology, reproductive output, and immunogenetics in the Thorn-tailed Rayadito (<i>Aphrastura spinicauda</i>)
25	Sophia Di Cataldo Hanna	Argentina	2021	Distribution, transmission and risk factors of infection with canine vector-borne pathogens in wild foxes and free-ranging dogs in Chile
26	Nicolás Latorre Padilla	Chile	2021	Transferencia de contaminantes desde la matriz acuática al erizo negro (<i>Tetrapygyus niger</i>) con <i>Macrocystis pyrifera</i> como intermediario
27	Alexandra Peñafiel Ricaurte	Ecuador	2021	Ecology of <i>Ranavirus</i> and <i>Batrachochytrium dendrobatidis</i> infection: assessing the roles of invasive aquatic species and seasonality
28	Karen Manríquez	Chile	2022	Efecto de la contaminación lumínica sobre el asentamiento y fitness de <i>Notochthamalus scabrosus</i> y <i>Jelius cirratus</i> (CIRRIPIEDIA)
29	Blanca Molina Burgos	Chile	2022	Trophic ecology as an indicator of ecosystem health in two important resources of Southern demersal Chilean Fisheries
30	Thais Luarte Anduaga	Chile	2023	Environmental fate of Persistent Organic Pollutants (POPs) during the austral summer in Antarctica
31	Diego Maturana Roldán	Chile	2023	Combined effects of the increase of sea water temperature and artificial light at night (ALAN) on the behavior and physiological condition of an intertidal fish
32	Carlos Calvo Mac	Perú	2023	Assessment of <i>Toxoplasma gondii</i> exposure in Carnivores of the Valdivian Temperate Rainforest, Chile: Insights from Marine Otters (<i>Lontra felina</i>), American Mink (<i>Neogale vison</i>), and Domestic Cats (<i>Felis catus</i>)
33	Camila Dünner Oligier	Chile	2023	Carnívoros en la zona central de Chile: enfrentando una interfaz peri-urbana creciente
