

Resultados Concurso “Apoyo a eventos científicos 2018/ IV (Alumnos de doctorado)”

ID	Estudiante	Doctorado	Título de la Ponencia	Evento	Ciudad País	email
1	César Arias.	Física teórica de altas energías.	Holography and Representation Theory: From Conformal Geometry to Higher Spins.	8th BANGKOK WORKSHOP ON HIGH-ENERGY THEORY	Bangkok, Tailandia	cesar.arias@unab.cl
2	Diego Pérez.	Medicina de la conservación.	1.- A stochastic matrix population model reveal subtle, but important, population-level effects, of the entanglement with macroplastics in Southern fur seal population from North Patagonia, Chile. 2.- Microfiber ingestion in otariids along chilean and peruvian coast: a possible sentinel of biomagnification?	Micro2018	Lanzarote, España	diegojoaquin.pv@gmail.com
3	Elfego Cuevas.	Medicina de la conservación.	Factors related to haemosporidian infection in a forests specialist bird species through a latitudinal gradient.	4TH INTERNATIONAL CONFERENCE ON MALARIA AND RELATED HAEMOSPORIDIAN PARASITES OF WILDLIFE	Beijing, China	elfcuevas@gmail.com
4	Sebastián Arredondo.	Biociencias Moleculares.	Wnt5a induces differentiation and development of adult neural progenitor cells through activation of non-canonical Wnt signaling cascades.	NEUROSCIENCE 2018	California, Estados Unidos	siarredo@gmail.com
5	Pablo Martínez.	Biociencias Moleculares.	Skeletal myotubes expressing human SOD1(G93A) trigger motor neuron neurodegeneration through the release of a toxic factor(s).	NEUROSCIENCE 2018	California, Estados Unidos	MARTINEZC.PABLOA@GMAIL.COM
