

Resultados Concurso “Apoyo a eventos científicos 2019/ III (Alumnos de Doctorado)”

ID	Estudiante	Doctorado	Título de la Ponencia	Evento	Ciudad País
1	Francisco Issotta	Biotecnología	Análisis de secuenciaciones metagenómicas: Microbial diversity across Río Agrio, an extremely acidic natural model system of interest for bioleaching	“METAGENOMICS BIOINFORMATICS COURSE”.	Reino Unido, Cambridge
2	Irene Sacristán	Medicina de la Conservación	ANTIBIOTIC RESISTANCE GENES AS INDICATORS OF ANTHROPOGENIC IMPACT IN WILD GUIGNA (LEOPARDUS GUIGNA) HABITAT, CHILE: THE FIRST DETECTION OF MecA IN SOUTH AMERICAN WILD FELIDS	68TH ANNUAL INTERNATIONAL CONFERENCE WILDLIFE DISEASE ASSOCIATION	Estados Unidos, California
3	Javier Campos	Biotecnología	Role of heteromers formed by chemokine receptors and dopamine receptors in CD4+ T-Cell Migration	19TH INTERNATIONAL CONGRESS OF MUCOSAL IMMUNOLOGY	Australia, Brisbane
4	Gabriela Navarro	Astrofísica	VVV MICROLENSING EVENTS, CURRENT STATUS AND FUTURE WORK.	10 TH VVV SCIENCE MEETING	Estados Unidos, Hawái
5	Pablo Castro	Biotecnología	Clostridioides difficile toxin-mediated remodeling of the intestinal barrier increases adherence of C. difficile spores to the intestinal mucosa.	The International Conferences on the Molecular Biology and Pathogenesis of the Clostridia. Clos path 11 2019	Holanda, Leiden
6	Sebastián Gatica	Biociencias Moleculares	Expression suppression and activity inhibition of TRPM7 protects against kidney injury, endothelial hyper permeability and mortality during endotoxemia	The Ion Channel Regulation Conference: Molecules to Disease	Portugal, Lisboa
