

Viña Santa Rita was founded in 1880 by Don Domingo Fernández Concha, a leading businessman and public figure of the time. Don Domingo brought the finest French grape varieties to the rich soils of the Maipo Valley, together with specialized equipment and a team of top winemakers from France. This brought techniques that were hitherto unknown in Chile, changing the way in which wines were made in the country and bringing spectacular results.

Viña Santa Rita has continued to work with the latest and most advanced technology to create exquisite wines for each of its product lines, bringing forth the many prizes and awards that it has earned over the years.

On Thursday afternoon, we will be taking a guided tour of this renowned vineyard, to explore its gardens, vineyards, cellars, and the process of winemaking, aging, and bottling. The activity will conclude with a delightful dinner at the onsite restaurant, located in a historic house dating back to 1750.
